

KEISER INFINITY

INFINITY SERIES

**YOU CAN'T CALL IT FUNCTIONAL
IF YOU CAN'T MOVE AT SPEED**

FUNCTIONAL TRAINER

Model 3020 + Model 3021, 3025 or 300836

PUSHING THE LIMITS OF HUMAN PERFORMANCE

At Keiser, we're constantly innovating to reach the next level of human performance. We're never satisfied with the status quo. Even if it's our status quo. Because... Strong can be stronger. Fast can be faster. Power can be more powerful. Because science is on our side. **Because... 'Good Enough' Isn't.**

KEISER

KEISER INFINITY SERIES

Train real-world movement at real-world speed. From professional athletes to the frail elderly, Keiser's Infinity Series is the most efficient way to develop functional, real-world power — on any plane, at any speed. Whatever the motion you want to train — throwing a baseball, swinging a club, or just performing the activities of daily living — Keiser's Infinity Series lets you train the neuromuscular system at the speed of life.

INFINITY SERIES FUNCTIONAL TRAINER

Model 3020 + Model 3021, 3025 or 300836

FAST AND FREE-STANDING

Just because you can pull a cable in a variety of directions doesn't make it functional. It's pulling at the speed we perform that makes it truly functional. We designed this machine to be faster than the fastest human being, so we could properly train any movement, at any speed, in any direction. To truly understand what this all means, you've got to try it. Once you do, you will understand true FUNCTION. The Functional Trainer MUST be purchased with either a Free-Standing Base [Model 3025] or our Floor Mount Base Plate [Model 3021] or our Extended Base Plate [Model 300836] that raises the FT up 12 inches [305 mm] for basketball teams. [The Floor Mount and Extended Base Plates must be securely anchored to a concrete floor per instruction.]*

**Failure to follow the instructions could result in the Functional Trainer coming loose from the concrete, resulting in serious injury or death. The facility assumes all liability for the anchoring of this plate.*
